

Rental Care Instructions

MB Wholesale will show you how to safely assemble our Artificial Trees, Arches, Stands and Flower Halos when you collect the goods.

Sashes

- Will be washed and ironed ready for collection.
- Please do not wash and iron sashes as they are extremely delicate.

Charger Plates

- Charger plates will be supplied in plastic boxes to make them easier to move and store. Please return in the same plastic boxes.
- Glass charger plates are heavy and need to be carefully moved to prevent being dropped or cracked.
- Acrylic charger plates can easily be cracked, so care needs to be taken not to place anything heavy on them and store carefully.
- Charger plates will be washed and dried ready for collection and should be returned in the same condition.

Pampas Grass

- Pampas grass is delicate and can easily break, so care must be taken when moving and transporting.
- Pampas grass easily sheds so expect to find shedding in your vehicle and where placed. It is advisable to take a vacuum with you to clear up after dressing and removal.

Floral Displays

- Artificial flower displays are delicate, can easily get dirty and break.
- Please do not store on the floor, leave outside, in a dusty environment, get wet, place underneath shelves that could bend or mis-shape them or place them on top of each other, to name a few.
- Should any artificial flowers and/or branches fall off, please keep and return.

Vases, Frames

- Glass vases and frames can easily break and scratch.
- Please carefully transport and store in a safe place.

Arches

- Only move when the arch is not assembled.
- Please dismantle the arch before transporting.
- If you have rented fabric and/or flower displays from MB Wholesale to be attached to the arch or are wanting to use your own, please check with MB Wholesale, which method of attachment is acceptable to use as any damages will have to be paid for.

Blossom/Wisteria Trees

- Artificial branches are delicate, can easily get dirty and break.
- Please do not store on the floor, leave outside, in a dusty environment or get wet.
- Please remove branches before transporting to avoid damage.
